

A Day in the Life of Cobot

Please excuse me! Can you help me get done with all my tasks for today? If I pick up a letter doing my tasks, I can't pick it up again.

Things I gotta do today:

1. Teach in an outdoor classroom.

2. Go to office hours.

3. Submit an article about myself for *The Link*.

4. Visit the Dean.

5. Kindly request someone to press "6".

6. Attend a tech talk.

7. Eat free food.

8. Ask about taking 122 and 251 together during freshman spring.

9. Find lost things at lost and found.

10. Rock softly on a colored wedge.

11. Look at the world upside-down (and find out where students are from!).

12. Learn martial arts from the master.

13. Request someone to kindly press "5".

14. Contemplate isometric art.

15. Occupy carrel.

16. Charge my phone (inductively).

17. Think about rolling down the helix. Value life and turn away.
